

NGUYỄN TRẦN LÊ

Frontend Developer

Career Objective

Aspiring to become an expert in Shopify development. Motivated to contribute to the success of the company by delivering high-performance, user-friendly eCommerce experiences. Always eager to learn, grow, and take part in impactful projects.

Work Experience

ALLGROW LABO - Frontend Developer (06/2022 - 6/2025)
Designing and developing websites based on the Shopify platform.

Key Responsibilities:

- Convert PSD, XD, and Figma designs into responsive HTML/CSS layouts based on client specifications.
- Maintain and enhance Shopify apps (e.g., Klaviyo, Shopify Flow, Boost AI).
- Optimize website performance (minified code, SEO improvements).
- Improve user experience and interface (UX/UI).
- Troubleshoot and fix bugs, implement template updates.
- Integrate custom add-ons as per client requirements.
- Research and implement new features and functions.

Notable Projects:

- www.cocacoca.jp
- www.anabelachan.com
- www.prank-project.com
- new-ella-demo.myshopify.com

HALOSOFT - Frontend Developer (05/2020 - 06/2022)
Worked with Shopify & BigCommerce platforms to build customized eCommerce websites.

GENCORP - Frontend Developer (07/2018 - 05/2020)
Developed and maintained websites on the WordPress platform.
